PROFESSIONAL SUMMARY

Full Stack and AI Developer with 1+ year of hands-on experience building responsive websites, web systems, and AI-powered features with Next.js, React, and TypeScript. Built the frontend and contributed to the UI/UX of the BridgewayDMC Tourist Package Management System for a Manila-based tourism company at RC Studio. Ships complete projects end-to-end, from design to deployment, with a focus on fast, mobile-first interfaces and practical AI that stays accurate. BSIT student at ICCT Colleges with a 1.10 GWA.

CORE SKILLS

Problem Solving • Logical Thinking • Attention to Detail • Fast Learner • Team Collaboration • Strong Communication • Building Under Pressure

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML, CSS, SQL
Frontend: React, Next.js, React Native (Expo), Tailwind CSS, Motion, Responsive / Mobile-First Design, Figma
Backend / Database: Node.js, REST APIs, PostgreSQL, Supabase
AI: LLM APIs (Claude, Groq), Chatbots, RAG, Prompt Engineering, Whisper (Speech-to-Text), Tesseract OCR, Ollama
Tools: Git, GitHub, Vercel, VS Code, Claude Code

PROFESSIONAL EXPERIENCE

Web Developer **2025**
RC Studio | Remote

- Built the frontend of the BridgewayDMC Tourist Package Management System, a private internal platform for a Manila-based tourism company
- Contributed to the UI/UX design, turning layouts into responsive, mobile-first interfaces
- Converted designs into fast, production-ready interfaces for client projects
- Integrated third-party APIs and AI features into client web projects

Independent Web Developer **2024 - Present**
Freelance / Self-Employed | Remote

- Design and build full projects end-to-end, from idea and UI design to deployment on Vercel
- Build and test AI-powered features, including LLM chatbots, offline voice input, and receipt OCR

SELECTED PROJECTS

- **Paluwagan - Savings Circle App** — Expo / React Native app for Filipino savings groups, in open beta. Online and offline circles, a provably fair SHA-256 commit-reveal payout draw, auto-reminders, and Ipon AI (Claude API) via Supabase Edge Functions
- **Casidar Gadgets - Client Website** — Live site for a family iPhone and iPad shop in Antipolo and Cainta, with a request builder that turns a customer's picks into a ready-to-send inquiry or pre-order via Messenger, SMS, Viber, or email
- **BaonBuddy - AI Budget Tracker App** — Allowance tracker for Filipino students that logs expenses by typing, speaking, or scanning a receipt, with offline Whisper speech-to-text, Tesseract OCR, and Taglish tips from a local LLM
- **Developer Portfolio & Anzyy AI Assistant** — Portfolio with case studies and a bilingual (English/Filipino) AI chat assistant grounded in the site's content, with rate limiting, an offline fallback, and SEO

EDUCATION

BS in Information Technology **2025 - 2026**
ICCT Colleges | Rizal, Philippines

- General Weighted Average (GWA): 1.10

AWARDS & CERTIFICATIONS

- **3rd Place, Vibe Coding Competition** — ICCT Colleges | October 2026
- **Full Stack Developer Certification** — freeCodeCamp | October 2026
